- Log into Compass through PirateNet
- Select Appointment Campaigns under the Quick Links heading on the Staff Home page
- Under the Actions heading, advisers can create a new Appointment Campaign
- After designing a new campaign, advisers can send an appointment request directly to their students. Students will be able to access the adviser's calendar through a link in the appointment request.
- Advisers can check back on the status of their campaigns throughout preregistration, and also have the option of sending follow up messages to students.
